Something more than a Land Purchase

The Red Synergy

I want it yesterday!

Our client

In service from 2009, the *“Cavour” aircraft carrier* is the new flagship of the Italian Navy. All of the cranes on board have been designed, manufactured and installed by our client, a company that collaborates with most of the world’s navies. To cope with **increasing orders coming from Asia navies**, our client established a new production facility in China. During the set up, a structure was created to purchase a large piece of land. However, this did not take into account all the legal and tax consequences, bringing the project to a standstill.
